Amigo Academy

Provide your child with the tools necessary to succeed in today's Global Community!

Amigo Academy is a Spanish language program created especially for three to six year olds. Thirty minute classes are taught weekly in the convenience of your preschool or daycare center.

Instructors combine Spanish with age appropriate games, songs, and activities to create language classes that are fun and educational.

Current research suggests that children acquire a second language more easily if taught at an early age. Moreover, experts believe that early exposure to a foreign language actually builds a more powerful brain.

How could your child benefit from such a program?

The early acquisition of a foreign language:

- Strengthens a child's mastery of his *first* language
- Makes it easier to learn a second language later in life
- Improves listening skills
- Improves problem-solving skills
- Improves reasoning skills
- Grows more connections in a child's brain
- Creates appreciation for different cultures
- Enhances basic communication skills
- Improves higher order thinking skills
- Gives students a cognitive boost that initializes higher performance in all subjects
- Stimulates brain activity
